*SUBJECT INDEX**

A

Abdominal aortic aneurysm(s)
- Acute thrombosis of abdominal aortic aneurysm subsequent to Heimlich maneuver: A case report (Kirshner and Green), 594
- Coexistence of abdominal aortic aneurysm and carcinoma of the colon: A dilemma (Lobbato et al.), 724
- The contrary position to the nonresective treatment for abdominal aortic aneurysm (Inahara et al.), 42
- Etiology of abdominal aortic "inflammatory" aneurysms: Hypothesis (Gaylis), 643 (letter)
- Factors affecting survival after ruptured abdominal aortic aneurysm (Donaldson, Rosenberg, Bucknam), 564
- Inflammatory abdominal aortic aneurysms: A thirty-year review (Pennell et al.), 859
- Rupture of surgically thrombosed abdominal aortic aneurysm (Schanzer, Papa, Miller), 278

Adolescence
- Chronic mesenteric ischemia in childhood and adolescence (Meacham and Dean), 878

Adventitial cystic disease
- Adventitial cystic disease of the popliteal artery: Failure of percutaneous transluminal angioplasty as a therapeutic modality (Fox), 464

Amputation
- Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
- Dry ice cryoamputation: A twelve-year experience (Hunsaker et al.), 812
- Failed grafts and level of amputation (Haimovici), 371
- Gangrene of the immediate postoperative above-knee amputation stump: Role of emergency revascularization in preventing death (Bunt), 874
- Results of revascularization and amputation in severe lower extremity ischemia: A five-year clinical experience (Hobson et al.), 174

Anastomoses
- Increased compliance near vascular anastomoses (Hasson, Megerman, Abbott), 419

Anastomotic hyperplasia
- Conformational stress and anastomotic hyperplasia (Kennedy and Winlove), 370 (letter); Reply (Madras et al.), 370

Aneurysm(s)
- Acute thrombosis of abdominal aortic aneurysm subsequent to Heimlich maneuver: A case report (Kirshner and Green), 594
- Aneurysm formation in human umbilical vein grafts used as arterial substitutes (Boontje), 524
- Aneurysm of aberrant subclavian artery with a review of the literature (Austin and Wolfe), 571
- Celiac artery aneurysms: Historic (1745-1949) versus contemporary (1950-1984) differences in etiology and clinical importance (Graham et al.), 757
- Coexistence of abdominal aortic aneurysm and carcinoma of the colon: A dilemma (Lobbato et al.), 724
- The contrary position to the nonresective treatment for abdominal aortic aneurysm (Inahara et al.), 42
- Extracranial carotid aneurysms: Report of six cases and review of the literature (Painter et al.), 312
- Factors affecting survival after ruptured abdominal aortic aneurysm (Donaldson, Rosenberg, Bucknam), 564
- Infected aortic aneurysms (Perry), 597
- Inflammatory abdominal aortic aneurysms: A thirty-year review (Pennell et al.), 859
- Inflammatory aneurysms of the aorta (Crawford et al.), 113
- Management of patients with symptomatic extracranial carotid artery disease and incidental intracranial berry aneurysm (Orecchia et al.), 158
- Medial agenesis associated with multiple extracranial peripheral and visceral arterial aneurysms (O'Hara et al.), 298
- Medial agenesis associated with multiple extracranial peripheral and visceral arterial aneurysms (Lie), 924 (letter); Reply (O'Hara et al.), 924
- Mesenteric vascular insufficiency and claudication following acute dissecting thoracic aortic aneurysm (Cogbill, Gundersen, Travelli), 472
- A new serum proteolytic enzyme in aneurysm pathogenesis (Brown, Backstrom, Busuttil), 393
- True aneurysm of the pancreaticoduodenal artery: A case report and review of the literature (Gangahar et al.), 741

Aneurysmectomy
- Renal transplant perfusion during aortoiliac aneurysmectomy (Hughes, Milfeld, Shield), 600

Angioendotheliomatosis
- Cerebral angioendotheliomatosis associated with hemispheric symptoms of carotid arterial origin (Chapman and Loy), 281

Angiography
- Clinical experience with preoperative coronary angiography (Hertzer), 510
- Digital subtraction angiography: Intravenous and intraarterial techniques (Sumner et al.), 344
- A new method for the prediction of peripheral vascular resistance from the preoperative angiogram (LaMorte et al.), 703

*January, pp. 1-238; March, pp. 239-370; May, pp. 371-514; July, pp. 515-644; September, pp. 645-766; November, pp. 767-952.

Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504
The use of digitized intravenous angiography in a clinical setting. A retrospective review of 58 patients (Roederer et al.), 327

Angioplasty (*see* Percutaneous transluminal angioplasty)

Ankle hemodynamics
Perioperative noninvasive hemodynamic ankle indices as predictors of infrainguinal graft patency (Samson et al.), 307

Anterior tibial artery
Medial approach to the anterior tibial artery (Dardik et al.), 743

Antiplatelet agents
Effects of antiplatelet agents in combination with endothelial cell seeding on small-diameter Dacron vascular graft performance in the canine carotid artery model (Schmidt et al.), 898

Antiplatelet therapy
Failure of antiplatelet therapy with ibuprofen (Motrin) to prevent neointimal fibrous hyperplasia (McCready et al.), 205

Aorta
Concomitant renal revascularization in patients undergoing aortic surgery (Stewart et al.), 400
The fate of human umbilical vein grafts as an infrarenal aortic substitute in monkeys (Guidoin et al.), 715
Infected aortic aneurysms (Perry), 597
Inflammatory abdominal aortic aneurysms: A thirty-year review (Pennell et al.), 859
Inflammatory aneurysms of the aorta (Crawford et al.), 113

Aorta, abdominal
Acute thrombosis of abdominal aortic aneurysm subsequent to Heimlich maneuver: A case report (Kirshner and Green), 594
Coexistence of abdominal aortic aneurysm and carcinoma of the colon: A dilemma (Lobbato et al.), 724
The contrary position to the nonresective treatment for abdominal aortic aneurysm (Inahara et al.), 42
Etiology of abdominal aortic "inflammatory" aneurysms: Hypothesis (Gaylis), 643 (letter)
Factors affecting survival after ruptured abdominal aortic aneurysm (Donaldson, Rosenberg, Bucknam), 564
Inflammatory abdominal aortic aneurysms: A thirty-year review (Pennell et al.), 859
Rupture of surgically thrombosed abdominal aortic aneurysm (Schanzer, Papa, Miller), 278
Use of a balloon-tipped perfusion catheter for renal preservation during suprarenal abdominal aortic operations (Walker and Peterson), 337

Aorta, infrarenal
The fate of human umbilical vein grafts as an infrarenal aortic substitute in monkeys (Guidoin et al.), 715

Aorta, thoracic
Distal thoracic aorta to femoral artery bypass: A surgical alternative (Rosenfeld, Savarese, DeLaurentis), 747
Mesenteric vascular insufficiency and claudication following acute dissecting thoracic aortic aneurysm (Cogbill, Gundersen, Travelli), 472

Aortic arch
Direct revascularization for occlusion of the trunks of the aortic arch (Ehrenfeld and Rapp), 228
Extra-anatomic bypass for revascularization of occlusive lesions involving the branches of the aortic arch (Moore), 230

Aortic dissection
Mesenteric vascular insufficiency and claudication following acute dissecting thoracic aortic aneurysm (Cogbill, Gundersen, Travelli), 472

Aortovelography
The diagnosis and assessment of coronary artery disease in vascular patients (Nicolaides), 501

Arterial graft(s)
The influence of inner wall filamentousness on the performance of small- and large-caliber arterial grafts (Wu et al.), 355

Arterial prostheses
Endothelium develops on seeded human arterial prostheses (Herring, Baughman, Glover), 727

Arterial reconstruction
Omental protection of autogenous arterial reconstruction following femoral prosthetic graft infection (Mendes et al.), 603

Arterial wall
Effect of wall shear stress on intimal thickening of arterially transplanted autogenous veins in dogs (Morinaga et al.), 430
The influence of inner wall filamentousness on the performance of small- and large-caliber arterial grafts (Wu et al.), 355

Arteriography
Comparison of duplex scanning and contrast arteriography: A community hospital experience (Kenagy), 591

Arteriosclerosis
Late mortality and morbidity after arterial reconstruction: The influence of arteriosclerosis in popliteal artery trifurcation (Källerö et al.), 541
Ocular manifestations of carotid artery atheroma (Kirshner et al.), 850

Arteriovenous fistulas
Arteriovenous fistulas following lumbar laminectomy: The anatomy defined (Quigley and Stoney), 828
Local thrombolysis in the treatment of thrombosed arteries, bypass grafts, and arteriovenous fistulas (Graor et al.), 406

Arteriovenous shunting
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684

Artery *(see specific artery)*
Autogenous vein grafts
Effect of wall shear stress on intimal thickening of arterially transplanted autogenous veins in dogs (Morinaga et al.), 430
Autologous artery graft
In vivo evaluation of the acute thrombogenicity of the modified human umbilical vein and autologous artery (Björck et al.), 434
Axillary artery
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Blaisdell), 925; Reply (Hartman), 925
Axillary vein
Lytic therapy in the treatment of axillary and subclavian vein thrombosis (Druy et al.), 821
Axillofemoral bypass grafts
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Hartman et al.), 295
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Blaisdell), 925; Reply (Hartman), 925
Axillo–internal carotid artery bypass
Axillo–internal carotid artery bypass in the treatment of neck metastases (Carabasi and DeLaurentis), 578

B

Balloon catheters
Balloon embolectomy catheters in small arteries: A technique to prevent excessive shear forces (Dobrin and Jorgensen), 692
Balloon dilatation
Intramural dissection of superior mesenteric artery. A complication of attempted renal artery balloon dilation (Perry), 480
Berry aneurysm
Management of patients with symptomatic extracranial carotid artery disease and incidental intracranial berry aneurysm (Orecchia et al.), 158
Bioprosthetic valves
Valve failure with the Ionescu-Shiley bovine pericardial bioprosthesis: Analysis of 2680 patients (Reul et al.), 192
Blood flow
Effects of vasopressin on cardiac output and its distribution in the subhuman primate (Kerr et al.), 443
Blood viscosity
Viscous factors in peripheral tissue perfusion (Johnson et al.), 530
Boundary layer separation
Structural details of boundary layer separation in a model human carotid bifurcation under steady and pulsatile flow conditions (LoGerfo, Nowak, Quist), 263
Bypass grafts *(see specific type)*

C

Carcinoma
Coexistence of abdominal aortic aneurysm and carcinoma of the colon: A dilemma (Lobbato et al.), 724
Cardiac output
Effects of vasopressin on cardiac output and its distribution in the subhuman primate (Kerr et al.), 443
Cardiovascular disease
Magnetic resonance imaging and spectroscopy in the study of cardiovascular disease (Rhodes and Cohen), 354
Cardiovascular surgery
Cardiovascular surgery–The rocket and its stars: Presidential address (Ochsner), 1
Late outcome of untreated asymptomatic carotid disease following cardiovascular operations (Barnes et al.), 843
Carotid artery
Accuracy of carotid Doppler peak frequency analysis: Results determined by receiver operating characteristic curves and likelihood ratios (Johnston et al.), 515
Carotid endarterectomy after a completed stroke: Reduction in long-term neurologic deterioration (McCullough et al.), 7
Carotid endarterectomy. Relationship of outcome to early restenosis (Nicholls et al.), 375
Cerebral angioendotheliomatosis associated with hemispheric symptoms of carotid arterial origin (Chapman and Loy), 281
Comparison of various oculoplethysmography modalities (AbuRahma and Diethrich), 288
Effects of antiplatelet agents in combination with endothelial cell seeding on small-diameter Dacron vascular graft performance in the canine carotid artery model (Schmidt et al.), 898
Extracranial carotid aneurysms: Report of six cases and review of the literature (Painter et al.), 312
Idiopathic ischemic syndromes of the retina and optic nerve and their carotid origin (Berguer), 649
Late outcome of untreated asymptomatic carotid disease following cardiovascular operations (Barnes et al.), 843
Ocular manifestations of carotid artery atheroma (Kirshner et al.), 850
The role of carotid duplex scanning in surgical decision making (Flanigan et al.), 15
Timing of carotid artery endarterectomy after stroke (Giordano et al.), 250
Carotid artery disease
The contribution of spectral analysis to the diagnosis of carotid artery disease (Thomas et al.), 270
Late outcome of untreated asymptomatic carotid disease following cardiovascular operations (Barnes et al.), 843
Management of patients with symptomatic extracranial carotid artery disease and incidental intracranial berry aneurysm (Orecchia et al.), 158

Ultrasound characteristics of recurrent carotid disease: Hypothesis explaining the low incidence of symptomatic recurrence (O'Donnell et al.), 26

Carotid artery, external

External carotid revascularization: Review of a ten-year experience (O'Hara, Hertzer, Beven), 709

Revascularization of the external carotid artery (Zarins), 232

Carotid bifurcation

Structural details of boundary layer separation in a model human carotid bifurcation under steady and pulsatile flow conditions (LoGerfo, Nowak, Quist), 263

Carotid endarterectomy

Carotid endarterectomy after a completed stroke: Reduction in long-term neurologic deterioration (McCullough et al.), 7

Carotid endarterectomy in the stroke patient: Computerized axial tomography to determine timing (Dosick et al.), 214

Carotid endarterectomy. Relationship of outcome to early restenosis (Nicholls et al.), 375

Continuous-wave Doppler in the intraoperative assessment of carotid endarterectomy (Seifert and Blackshear), 817

Optimal cerebral monitoring during carotid endarterectomy: Neurologic response under local anesthesia (Evans et al.), 775

Safer shunt insertion during carotid endarterectomy (Beezley), 607

The safety of carotid endarterectomy at the time of coronary artery bypass surgery: Analysis of results in a high-risk patient population (Perler, Burdick, Williams), 558

Timing of carotid artery endarterectomy after stroke (Giordano et al.), 250

Use of oculopneumoplethysmography (OPG-Gee) following carotid endarterectomy (Ricotta et al.), 415

Carotid steal syndrome

Carotid steal syndrome following carotid-subclavian bypass (Barnes), 369 (letter); Reply (Otis), 369

Catheters

Balloon embolectomy catheters in small arteries: A technique to prevent excessive shear forces (Dobrin and Jorgensen), 692

Use of a balloon-tipped perfusion catheter for renal preservation during suprarenal abdominal aortic operations (Walker and Peterson), 337

Celiac artery

Celiac artery aneurysms: Historic (1745-1949) versus contemporary (1950-1984) differences in etiology and clinical importance (Graham et al.), 757

Celiac artery compression syndrome

Late results following operative repair for celiac artery compression syndrome (Reilly et al.), 79

Cells

Effects of papaverine on smooth muscle cell morphology and vein graft preparation (Sottiurai et al.), 834

Cerebrovascular accident (*see* Stroke)

Cerebrovascular disease

The use of digitized intravenous angiography in a clinical setting. A retrospective review of 58 patients (Roederer et al.), 327

Cervical artery

Use of the transverse cervical artery with indwelling shunt for subclavian-vertebral bypass (Donaldson, Druckemiller, Zablow), 917

Childhood

Chronic mesenteric ischemia in childhood and adolescence (Meacham and Dean), 878

Femorotibial vein bypass in a child (Pinkerton, Davidson, Wood), 735

Clamp(s)

Iatrogenic vascular injury during peripheral revascularization (Bunt, Manship, Moore), 491

Claudication

Mesenteric vascular insufficiency and claudication following acute dissecting thoracic aortic aneurysm (Cogbill, Gundersen, Travelli), 472

Perspective: Intermittent claudication (Imparato), 767

Venous claudication successfully treated by distal superficial femoral–to–greater saphenous venous bypass (Annous and Queral), 870

Colon

Coexistence of abdominal aortic aneurysm and carcinoma of the colon: A dilemma (Lobbato et al.), 724

Compliance

Increased compliance near vascular anastomoses (Hasson, Megerman, Abbott), 419

Computed tomography

Carotid endarterectomy in the stroke patient: Computerized axial tomography to determine timing (Dosick et al.), 214

Conduit

The superficial femoral artery as a conduit: An alternative to prosthetic material (Mukherjee, Schickler, Inahara), 739

Conformational stress

Conformational stress and anastomotic hyperplasia (Kennedy and Winlove), 370 (letter); Reply (Madras et al.), 370

Coronary angiography

Clinical experience with preoperative coronary angiography (Hertzer), 510

Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504

Coronary artery bypass

The safety of carotid endarterectomy at the time of coronary artery bypass surgery: Analysis of results in a high-risk patient population (Perler, Burdick, Williams), 558

Coronary artery disease

Clinical experience with preoperative coronary angiography (Hertzer), 510

Concomitant cardiac and vascular disease: "Through the looking glass" (Ketterhagen et al.), 499
The diagnosis and assessment of coronary artery disease in vascular patients (Nicolaides), 501
Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504
Symposium on Identification and Management of Covert Coronary Artery Disease in Vascular Patients: Discussion, 513

Correspondence
Arterial wall microbiology and graft infections (Buckels and Wilson), 765 (letter); Reply (Malone), 766
Carotid steal syndrome following carotid-subclavian bypass (Barnes), 369; Reply (Otis), 369
Conformational stress and anastomotic hyperplasia (Kennedy and Winlove), 369 (letter); Reply (Madras et al.), 370
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Van den Brande and Welch), 643 (letter); Reply (Rutherford), 644
Etiology of abdominal aortic "inflammatory" aneurysms: Hypothesis (Gaylis), 643 (letter)
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Blaisdell), 925; Reply (Hartman), 925
Medial agenesis associated with multiple extracranial peripheral and visceral arterial aneurysms (Lie), 924; Reply (O'Hara et al.), 924
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Gerlock and Phifer), 765 (letter); Reply (Herring and Glover), 765

Cryoamputation
Dry ice cryoamputation: A twelve-year experience (Hunsaker et al.), 812

D

Dacron grafts
Effects of antiplatelet agents in combination with endothelial cell seeding on small-diameter Dacron vascular graft performance in the canine carotid artery model (Schmidt et al.), 898
The influence of inner wall filamentousness on the performance of small- and large-caliber arterial grafts (Wu et al.), 355
Small-diameter vascular prostheses: Two designs of PTFE and endothelial cell–seeded and nonseeded Dacron (Schmidt et al.), 292

Dextran 40
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Van den Brande and Welch), 643 (letter); Reply (Rutherford), 644

Diabetes
Skin perfusion pressure in the prediction of healing in diabetic patients with ulcers or gangrene of the foot (Faris and Duncan), 536

Diagnostic techniques *(see also specific technique)*
Diagnosis and management of renovascular disease. Summary of the NHLBI-sponsored workshop, 453
Digital subtraction angiography: Intravenous and intraarterial techniques (Sumner et al.), 344
Echo-Doppler (duplex) ultrasonic scanning (Strandness), 341
Introduction to Symposium on New Vascular Diagnostic Techniques (Barnes), 340
Magnetic resonance imaging and spectroscopy in the study of cardiovascular disease (Rhodes and Cohen), 354
Positron emission tomography: New analytic tool for vascular disease (Cone), 360
Summary of the Symposium on New Vascular Diagnostic Techniques (Barnes), 366
The use of digitized intravenous angiography in a clinical setting. A retrospective review of 58 patients (Roederer et al.), 327

Dialysis grafts
Management of tunnel infections of dialysis polytetrafluoroethylene grafts (Gifford), 854

Digital subtraction angiography
Digital subtraction angiography: Intravenous and intraarterial techniques (Sumner et al.), 344

Digitized intravenous angiography
The use of digitized intravenous angiography in a clinical setting. A retrospective review of 58 patients (Roederer et al.), 327

Dipyridamole
Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504

Disc embolization
Renal failure after embolization of a prosthetic mitral valve disc and review of systemic disc embolization (Schwarcz, Coffin, Pilcher), 697

Dissection
Spontaneous dissection of the superior mesenteric artery (Krupski, Effeney, Ehrenfeld), 731

Doppler ultrasound
Accuracy of carotid Doppler peak frequency analysis: Results determined by receiver operating characteristic curves and likelihood ratios (Johnston et al.), 515
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684
Continuous-wave Doppler in the intraoperative assessment of carotid endarterectomy (Seifert and Blackshear), 817

Dry ice (*see* Liquid nitrogen)

Duplex scanning
Comparison of duplex scanning and contrast arteriog-

raphy: A community hospital experience (Kenagy), 591
Echo-Doppler (duplex) ultrasonic scanning (Strandness), 341
The role of carotid duplex scanning in surgical decision making (Flanigan et al.), 15

E

Editorial
Failed grafts and level of amputation (Haimovici), 371
Perspective: Intermittent claudication (Imparato), 767
Electroencephalography
Optimal cerebral monitoring during carotid endarterectomy: Neurologic response under local anesthesia (Evans et al.), 775
Embolectomy
Balloon embolectomy catheters in small arteries: A technique to prevent excessive shear forces (Dobrin and Jorgensen), 692
Embolization
Renal failure after embolization of a prosthetic mitral valve disc and review of systemic disc embolization (Schwarcz, Coffin, Pilcher), 697
Endarterectomy (*see* Carotid endarterectomy)
Endothelial cell seeding
Effects of antiplatelet agents in combination with endothelial cell seeding on small-diameter Dacron vascular graft performance in the canine carotid artery model (Schmidt et al.), 898
Endothelial cell seeding of a new PTFE vascular prosthesis (Kempczinski et al.), 424
Endothelium develops on seeded human arterial prostheses (Herring, Baughman, Glover), 727
Kinetics of endothelial cell seeding (Rosenman et al.), 778
Small-diameter vascular prostheses: Two designs of PTFE and endothelial cell–seeded and nonseeded Dacron (Schmidt et al.), 292
Endothelium
Endothelium develops on seeded human arterial prostheses (Herring, Baughman, Glover), 727
Ethyl-cyanoacrylate glue
Control of needle hole bleeding with ethyl-cyanoacrylate glue (Krazy Glue) (Citrin et al.), 488
External carotid artery
External carotid revascularization: Review of a ten-year experience (O'Hara, Hertzer, Beven), 709
Revascularization of the external carotid artery (Zarins), 232
Extra-anatomic bypass
Extra-anatomic bypass for revascularization of occlusive lesions involving the branches of the aortic arch (Moore), 230
Extracranial-intracranial bypass
Extracranial-intracranial bypasses (Diaz), 234
Eye
Ocular manifestations of carotid artery atheroma (Kirshner et al.), 850

F

Femoral artery
Distal thoracic aorta to femoral artery bypass: A surgical alternative (Rosenfeld, Savarese, DeLaurentis), 747
Femoral artery bypass graft
Omental protection of autogenous arterial reconstruction following femoral prosthetic graft infection (Mendes et al.), 603
Venous claudication successfully treated by distal superficial femoral–to–greater saphenous venous bypass (Annous and Queral), 870
Femoral artery, superficial
The superficial femoral artery as a conduit: An alternative to prosthetic material (Mukherjee, Schickler, Inahara), 739
Venous claudication successfully treated by distal superficial femoral–to–greater saphenous venous bypass (Annous and Queral), 870
Femorofemoral bypass graft
Femorofemoral bypass with an infrascrotal perineal approach for the patient with an infected groin wound (Lawrence, Albo), 485
Femoropopliteal bypass graft
Iatrogenic entrapment of the femoropopliteal bypass (Gutierrez et al.), 468
Seven-year experience with polytetrafluoroethylene as above-knee femoropopliteal bypass graft (Sterpetti et al.), 907
Femorotibial vein bypass
Femorotibial vein bypass in a child (Pinkerton, Davidson, Wood), 735
Fibrinolysis
Intraoperative fibrinolytic therapy: An adjunct to catheter thromboembolectomy (Quinones-Baldrich, Zierler, Hiatt), 319
Fibromuscular dysplasia
Critical hand ischemia caused by forearm fibromuscular dysplasia (Edwards, Antonius, Porter), 459
Filter *(see specific type)*
First rib resection
The supraclavicular approach to scalenectomy and first rib resection: Description of technique (Sanders and Raymer), 751
Fistulas
Arteriovenous fistulas following lumbar laminectomy: The anatomy defined (Quigley and Stoney), 828
Operative technique for repair of tracheoinnominate artery fistula (Courcy, Rodriguez, Garrett), 332
Salvage of exposed arteriovenous hemodialysis fistulas (Moosa), 607
Flow separation
Structural details of boundary layer separation in a model human carotid bifurcation under steady and pulsatile flow conditions (LoGerfo, Nowak, Quist), 263

Foot
Infrapopliteal bypass for established gangrene of the forefoot or toes (Dalsing et al.), 669
Free radical scavengers
Protection of the kidney after temporary ischemia: Free radical scavengers (Ouriel, Smedira, Ricotta), 49

G

Gangrene
Gangrene of the immediate postoperative above-knee amputation stump: Role of emergency revascularization in preventing death (Bunt), 874
Infrapopliteal bypass for established gangrene of the forefoot or toes (Dalsing et al.), 669
Skin perfusion pressure in the prediction of healing in diabetic patients with ulcers or gangrene of the foot (Faris and Duncan), 536
Graft entrapment
Iatrogenic entrapment of the femoropopliteal bypass (Gutierrez et al.), 468
Graft failure
Failed grafts and level of amputation (Haimovici), 371
Graft infection(s)
Indium 111–labeled leukocyte scanning for detection of prosthetic vascular graft infection (Lawrence et al.), 165
Management of tunnel infections of dialysis polytetrafluoroethylene grafts (Gifford), 854
Omental protection of autogenous arterial reconstruction following femoral prosthetic graft infection (Mendes et al.), 603
The role of the lymphatic system in acute arterial prosthetic graft infections (Rubin, Malone, Goldstone), 92
Graft kinetics
Kinetics of endothelial cell seeding (Rosenman et al.), 778
Graft occlusion(s)
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Hartman et al.), 285
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Blaisdell), 925; Reply (Hartman), 925
Low-dose thrombolytic therapy for infrainguinal graft occlusions: An idea whose time has passed? (Perler et al.), 799
Graft patency
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Gerlock and Phifer), 765 (letter); Reply (Herring and Glover), 765
Perioperative noninvasive hemodynamic ankle indices as predictors of infrainguinal graft patency (Samson et al.), 307
Graft performance
Effects of antiplatelet agents in combination with endothelial cell seeding on small-diameter Dacron vascular graft performance in the canine carotid artery model (Schmidt et al.), 898
The influence of inner wall filamentousness on the performance of small- and large-caliber arterial grafts (Wu et al.), 355
Graft preparation
Effects of papaverine on smooth muscle cell morphology and vein graft preparation (Sottiurai et al.), 834
Greenfield filter
Experimental superior vena caval placement of the Greenfield filter (Langham et al.), 794
Groin infection
Femorofemoral bypass with an infrascrotal perineal approach for the patient with an infected groin wound (Lawrence, Albo), 485

H

Heimlich maneuver
Acute thrombosis of abdominal aortic aneurysm subsequent to Heimlich maneuver: A case report (Kirshner and Green), 594
Hemodialysis fistulas
Salvage of exposed arteriovenous hemodialysis fistulas (Moosa), 607
Hemodynamics
Long-term hemodynamic evaluation of lower extremity percutaneous transluminal angioplasty (Borozan et al.), 785
Heparin
Heparin-induced thrombocytopenia: A prospective study of 142 patients (Kakkasseril et al.), 382
Human umbilical vein grafts
Aneurysm formation in human umbilical vein grafts used as arterial substitutes (Boontje), 524
The fate of human umbilical vein grafts as an infrarenal aortic substitute in monkeys (Guidoin et al.), 715
In vivo evaluation of the acute thrombogenicity of the modified human umbilical vein and autologous artery (Björck et al.), 434
Hypertension
Reoperation for complications of renal artery reconstructive surgery undertaken for treatment of renovascular hypertension (Stanley et al.), 133

I

Ibuprofen
Failure of antiplatelet therapy with ibuprofen (Motrin) to prevent neointimal fibrous hyperplasia (McCready et al.), 205
Indium 111
Indium 111–labeled leukocyte scanning for detection of prosthetic vascular graft infection (Lawrence et al.), 165
Infrapopliteal bypass
Infrapopliteal bypass for established gangrene of the forefoot or toes (Dalsing et al.), 669
Innominate artery
Innominate artery lesions: Problems encountered and lessons learned (Brewster et al.), 99

Ionescu-Shiley bovine pericardial bioprosthesis
Valve failure with the Ionescu-Shiley bovine pericardial bioprosthesis: Analysis of 2680 patients (Reul et al.), 192
Ischemia
Chronic mesenteric ischemia in childhood and adolescence (Meacham and Dean), 878
Critical hand ischemia caused by forearm fibromuscular dysplasia (Edwards, Antonius, Porter), 459
Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
Idiopathic ischemic syndromes of the retina and optic nerve and their carotid origin (Berguer), 649
Martorell's hypertensive ischemic leg ulcers are secondary to an increase in the local vascular resistance (Duncan and Faris), 581
Protection of the kidney after temporary ischemia: Free radical scavengers (Ouriel, Smedira, Ricotta), 49
Results of revascularization and amputation in severe lower extremity ischemia: A five-year clinical experience (Hobson et al.), 174

J

Jugular vein
Simple extra-anatomic jugular vein bypass for subclavian vein thrombosis (Hansen, Feins, Detmer), 921

K

Kidney
Protection of the kidney after temporary ischemia: Free radical scavengers (Ouriel, Smedira, Ricotta), 49
Renal failure after embolization of a prosthetic mitral valve disc and review of systemic disc embolization (Schwarcz, Coffin, Pilcher), 697
Renal transplant perfusion during aortoiliac aneurysmectomy (Hughes, Milfeld, Shield), 600
The role of renal autotransplantation in pediatric and young adult patients with renal artery disease (Jordan, Novick, Cunningham), 385

L

Laminectomy
Arteriovenous fistulas following lumbar laminectomy: The anatomy defined (Quigley and Stoney), 828
Lesions
Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
Extra-anatomic bypass for revascularization of occlusive lesions involving the branches of the aortic arch (Moore), 230
Innominate artery lesions: Problems encountered and lessons learned (Brewster et al.), 99
Leukocyte scanning
Indium 111–labeled leukocyte scanning for detection of prosthetic vascular graft infection (Lawrence et al.), 165
Limb salvage
Isolated profundaplasty for limb salvage (Rollins et al.), 585
Tibiotibial vein bypass grafts: A new operation for limb salvage (Veith et al.), 552
Liquid nitrogen
Dry ice cryoamputation: A twelve-year experience (Hunsaker et al.), 812
Lower extremity(ies)
Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Van den Brande and Welch), 643 (letter); Reply (Rutherford), 644
Failed grafts and level of amputation (Haimovici), 371
Late mortality and morbidity after arterial reconstruction: The influence of arteriosclerosis in popliteal artery trifurcation (Källerö et al.), 541
Long-term hemodynamic evaluation of lower extremity percutaneous transluminal angioplasty (Borozan et al.), 785
Lymphatic system
The role of the lymphatic system in acute arterial prosthetic graft infections (Rubin, Malone, Goldstone), 92
Lysis
Lytic therapy in the treatment of axillary and subclavian vein thrombosis (Druy et al.), 821

M

Magnetic resonance imaging
Magnetic resonance imaging and spectroscopy in the study of cardiovascular disease (Rhodes and Cohen), 354
Management, surgical
Concomitant cardiac and vascular disease: "Through the looking glass" (Ketterhagen et al.), 499
Early operative intervention after thrombolytic therapy for acute myocardial infarction (Wellons et al.), 186
Late results following operative repair for celiac artery compression syndrome (Reilly et al.), 79
Management of patients with symptomatic extracranial carotid artery disease and incidental intracranial berry aneurysm (Orecchia et al.), 158
Matas, Rudolph
A lasting legacy: The life and work of Rudolph Matas (Cordell), 613
Medial agenesis
Medial agenesis associated with multiple extracranial peripheral and visceral arterial aneurysms (O'Hara et al.), 298
Medial agenesis associated with multiple extracranial peripheral and visceral arterial aneurysms (Lie), 924; Reply (O'Hara et al.), 924

Mesenteric artery, superior
Intramural dissection of superior mesenteric artery. A complication of attempted renal artery balloon dilation (Perry), 480
Spontaneous dissection of the superior mesenteric artery (Krupski, Effeney, Ehrenfeld), 731
Mesentery
Chronic mesenteric ischemia in childhood and adolescence (Meacham and Dean), 878
Metabolism
Laboratory evaluation of patients with vascular occlusive disease (Walker et al.), 892
Mitral valve
Renal failure after embolization of a prosthetic mitral valve disc and review of systemic disc embolization (Schwarcz, Coffin, Pilcher), 697
Morphology
Effects of papaverine on smooth muscle cell morphology and vein graft preparation (Sottiurai et al.), 834
Myocardial infarction
Early operative intervention after thrombolytic therapy for acute myocardial infarction (Wellons et al.), 186
Myocardium
Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504

N

Neck metastases
Axillo–internal carotid artery bypass in the treatment of neck metastases (Carabasi and DeLaurentis), 578
Needle hole bleeding
Control of needle hole bleeding with ethyl-cyanoacrylate glue (Krazy Glue) (Citrin et al.), 488
Neointimal fibrous hyperplasia
Failure of antiplatelet therapy with ibuprofen (Motrin) to prevent neointimal fibrous hyperplasia (McCready et al.), 205
Noninvasive tests *(see also specific test)*
Accuracy of carotid Doppler peak frequency analysis: Results determined by receiver operating characteristic curves and likelihood ratios (Johnston et al.), 515
Are strokes predictable with noninvasive methods: A five-year follow-up of 303 unoperated patients (Moore et al.), 654
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684
Comparison of duplex scanning and contrast arteriography: A community hospital experience (Kenagy), 591
Continuous-wave Doppler in the intraoperative assessment of carotid endarterectomy (Seifert and Blackshear), 817
The contribution of spectral analysis to the diagnosis of carotid artery disease (Thomas et al.), 270
Echo-Doppler (duplex) ultrasonic scanning (Strandness), 341
Introduction to Symposium on New Vascular Diagnostic Techniques (Barnes), 340
Laboratory evaluation of patients with vascular occlusive disease (Walker et al.), 892
Magnetic resonance imaging and spectroscopy in the study of cardiovascular disease (Rhodes and Cohen), 354
An objective sequential compression test to evaluate the patency of the radial and ulnar arteries (Fronek and King), 450
Perioperative noninvasive hemodynamic ankle indices as predictors of infrainguinal graft patency (Samson et al.), 307
Reproducibility of noninvasive tests of peripheral occlusive arterial disease (Osmundson et al.), 678
The role of carotid duplex scanning in surgical decision making (Flanigan et al.), 15
Summary of the Symposium on New Vascular Diagnostic Techniques (Barnes), 366
Use of oculopneumoplethysmography (OPG-Gee) following carotid endarterectomy (Ricotta et al.), 415
Nuclear magnetic resonance
Magnetic resonance imaging and spectroscopy in the study of cardiovascular disease (Rhodes and Cohen), 354

O

Occlusion(s)
Direct revascularization for occlusion of the trunks of the aortic arch (Ehrenfeld and Rapp), 228
Low-dose thrombolytic therapy for infrainguinal graft occlusions: An idea whose time has passed? (Perler et al.), 799
The occluded renal artery: Durability of revascularization (Vogt et al.), 125
Subclavian steal despite ipsilateral vertebral occlusion (Pasch et al.), 913
Thrombolytic therapy for acute arterial occlusion (Sicard et al.), 65
Occlusive disease
Laboratory evaluation of patients with vascular occlusive disease (Walker et al.), 892
Ocular pneumoplethysmography
Comparison of various oculoplethysmography modalities (AbuRahma and Diethrich), 288
Use of oculopneumoplethysmography (OPG-Gee) following carotid endarterectomy (Ricotta et al.), 415
Omentum
Omental protection of autogenous arterial reconstruction following femoral prosthetic graft infection (Mendes et al.), 603
Optic nerve
Idiopathic ischemic syndromes of the retina and optic nerve and their carotid origin (Berguer), 649
Oxygen inhalation
Oxygen inhalation–induced transcutaneous Po_2 changes as a predictor of amputation level (Harward et al.), 220

Oxygen tension
Oxygen inhalation–induced transcutaneous Po_2 changes as a predictor of amputation level (Harward et al.), 220

P

Pancreaticoduodenal artery
True aneurysm of the pancreaticoduodenal artery: A case report and review of the literature (Gangahar et al.), 741
Papaverine
Effects of papaverine on smooth muscle cell morphology and vein graft preparation (Sottiurai et al.), 834
Patency
An objective sequential compression test to evaluate the patency of the radial and ulnar arteries (Fronek, King), 450
Patient age
The early results of vascular surgery in patients 75 years of age and older: An analysis of 3259 cases (Plecha et al.), 769
Patient survival
Cumulative stroke and survival ten years after carotid endarterectomy (Hertzer and Arison), 661
Percutaneous transcatheter embolization
Percutaneous transcatheter embolization for arterial trauma (Panetta et al.), 54
Percutaneous transluminal angioplasty
Adventitial cystic disease of the popliteal artery: Failure of percutaneous transluminal angioplasty as a therapeutic modality (Fox), 464
Long-term hemodynamic evaluation of lower extremity percutaneous transluminal angioplasty (Borozan et al.), 785
Perfusion
Renal transplant perfusion during aortoiliac aneurysmectomy (Hughes, Milfeld, Shield), 600
Viscous factors in peripheral tissue perfusion (Johnson et al.), 530
Pericardial bioprostheses
Valve failure with the Ionescu-Shiley bovine pericardial bioprosthesis: Analysis of 2680 patients (Reul et al.), 192
Peripheral occlusive arterial disease
Reproducibility of noninvasive tests of peripheral occlusive arterial disease (Osmundson et al.), 678
Peripheral vascular disease
Viscous factors in peripheral tissue perfusion (Johnson et al.), 530
Peripheral vascular resistance
A new method for the prediction of peripheral vascular resistance from the preoperative angiogram (LaMorte et al.), 703
Polytetrafluoroethylene grafts
Control of needle hole bleeding with ethyl-cyanoacrylate glue (Krazy Glue) (Citrin et al.), 488
Endothelial cell seeding of a new PTFE vascular prosthesis (Kempczinski et al.), 424
Management of tunnel infections of dialysis polytetrafluoroethylene grafts (Gifford), 854
Seven-year experience with polytetrafluoroethylene as above-knee femoropopliteal bypass graft (Sterpetti et al.), 907
Small-diameter vascular prostheses: Two designs of PTFE and endothelial cell–seeded and nonseeded Dacron (Schmidt et al.), 292
Popliteal artery
Adventitial cystic disease of the popliteal artery: Failure of percutaneous transluminal angioplasty as a therapeutic modality (Fox), 464
Popliteal entrapment syndrome: A report of tibial nerve entrapment (Podore), 335
Popliteal artery trifurcation
Late mortality and morbidity after arterial reconstruction: The influence of arteriosclerosis in popliteal artery trifurcation (Källerö et al.), 541
Popliteal entrapment syndrome
Popliteal entrapment syndrome: A report of tibial nerve entrapment (Podore), 335
Positron emission tomography
Positron emission tomography: New analytic tool for vascular disease (Cone), 360
Presidential address
Cardiovascular surgery–The rocket and its stars (Ochsner), 1
A lasting legacy: The life and work of Rudolph Matas (Cordell), 613
1984: Newspeak, doublethink, and vascular surgery (Baker), 645
Profundaplasty
Isolated profundaplasty for limb salvage (Rollins et al.), 585
Prostheses
Endothelial cell seeding of a new PTFE vascular prosthesis (Kempczinski et al.), 424
Endothelium develops on seeded human arterial prostheses (Herring, Baughman, Glover), 727
Small-bowel obstruction caused by intraluminal migration of prosthetic grafts (Jarrett et al.), 477
The superficial femoral artery as a conduit: An alternative to prosthetic material (Mukherjee, Schickler, Inahara), 739
Prosthetic disc(s)
Renal failure after embolization of a prosthetic mitral valve disc and review of systemic disc embolization (Schwarcz, Coffin, Pilcher), 697
Prosthetic graft infection
Indium 111–labeled leukocyte scanning for detection of prosthetic vascular graft infection (Lawrence et al.), 165
The role of the lymphatic system in acute arterial prosthetic graft infections (Rubin, Malone, Goldstone), 92
Proteolytic enzymes
A new serum proteolytic enzyme in aneurysm pathogenesis (Brown, Backstrom, Busuttil), 393

Pruitt-Inahara shunt
Use of a balloon-tipped perfusion catheter for renal preservation during suprarenal abdominal aortic operations (Walker and Peterson), 337

R

Radial artery
An objective sequential compression test to evaluate the patency of the radial and ulnar arteries (Fronek and King), 450
Reconstruction(s)
Discussion to Symposium on Surgery of the Vertebral Artery, 639
Distal vertebral artery bypass: Technique, the "occipital connection," and potential uses (Berguer), 621
Introduction to Symposium on Surgery of the Vertebral Artery (Perry), 620
The surgical reconstruction of the proximal subclavian and vertebral artery (Edwards and Mulherin), 639
Vertebral arterial reconstruction: A nineteen-year experience (Imparato), 626
Renal artery
Concomitant renal revascularization in patients undergoing aortic surgery (Stewart et al.), 400
Intramural dissection of superior mesenteric artery. A complication of attempted renal artery balloon dilation (Perry), 480
The occluded renal artery: Durability of revascularization (Vogt et al.), 125
Reoperation for complications of renal artery reconstructive surgery undertaken for treatment of renovascular hypertension (Stanley et al.), 133
Splenorenal bypass in the treatment of renal artery stenosis: Experience with sixty-nine cases (Khauli, Novick, Zeigelbaum), 547
Use of a balloon-tipped perfusion catheter for renal preservation during suprarenal abdominal aortic operations (Walker and Peterson), 337
Renal artery disease
The role of renal autotransplantation in pediatric and young adult patients with renal artery disease (Jordan, Novick, Cunningham), 385
Renovascular disease
Diagnosis and management of renovascular disease. Summary report of the NHLBI-sponsored workshop, 453
Renovascular hypertension
Reoperation for complications of renal artery reconstructive surgery undertaken for treatment of renovascular hypertension (Stanley et al.), 133
Restenosis
Carotid endarterectomy. Relationship of outcome to early restenosis (Nicholls et al.), 375
Retina
Idiopathic ischemic syndromes of the retina and optic nerve and their carotid origin (Berguer), 649
Revascularization
Concomitant renal revascularization in patients undergoing aortic surgery (Stewart et al.), 400
Direct revascularization for occlusion of the trunks of the aortic arch (Ehrenfeld and Rapp), 228
Discussion to Symposium on Revascularization After Thrombosis of the Extracranial Vasculature, 236
Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
External carotid revascularization: Review of a ten-year experience (O'Hara, Hertzer, Beven), 709
Extra-anatomic bypass for revascularization of occlusive lesions involving the branches of the aortic arch (Moore), 230
Extracranial-intracranial bypasses (Diaz), 234
Femorofemoral bypass with an infrascrotal perineal approach for the patient with an infected groin wound (Lawrence and Albo), 485
Gangrene of the immediate postoperative above-knee amputation stump: Role of emergency revascularization in preventing death (Bunt), 874
Iatrogenic vascular injury during peripheral revascularization (Bunt, Manship, Moore), 491
Introduction to Symposium on Revascularization After Thrombosis of the Extracranial Vasculature (Moore), 228
The occluded renal artery: Durability of revascularization (Vogt et al.), 125
Reoperation for complications of renal artery reconstructive surgery undertaken for treatment of renovascular hypertension (Stanley et al.), 133
Results of revascularization and amputation in severe lower extremity ischemia: A five-year clinical experience (Hobson et al.), 174
Revascularization of the external carotid artery (Zarins), 232

S

Saphenous vein
Surgical treatment of saphenous varices, with preservation of the main great saphenous trunk (Large), 886
Saphenous vein bypass
Lessons learned in adopting the in situ saphenous vein bypass (Levine et al.), 146
Saphenous vein, greater
Surgical treatment of saphenous varices, with preservation of the main great saphenous trunk (Large), 886
Venous claudication successfully treated by distal superficial femoral–to–greater saphenous venous bypass (Annous and Queral), 870
Scalenectomy
The supraclavicular approach to scalenectomy and first rib resection: Description of technique (Sanders and Raymer), 751

Shear stress
Balloon embolectomy catheters in small arteries: A technique to prevent excessive shear forces (Dobrin and Jorgensen), 692
Effect of wall shear stress on intimal thickening of arterially transplanted autogenous veins in dogs (Morinaga et al.), 430
Shunt(s) *(see also specific type)*
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684
Safer shunt insertion during carotid endarterectomy (Beezley), 607
Use of a balloon-tipped perfusion catheter for renal preservation during suprarenal abdominal aortic operations (Walker and Peterson), 337
Use of the transverse cervical artery with indwelling shunt for subclavian-vertebral bypass (Donaldson, Druckemiller, Zablow), 917
Skin perfusion pressure
Skin perfusion pressure in the prediction of healing in diabetic patients with ulcers or gangrene of the foot (Faris and Duncan), 536
Small-bowel obstruction
Small-bowel obstruction caused by intraluminal migration of prosthetic grafts (Jarrett et al.), 477
Spectral analysis
The contribution of spectral analysis to the diagnosis of carotid artery disease (Thomas et al.), 270
Spine
Arteriovenous fistulas following lumbar laminectomy: The anatomy defined (Quigley and Stoney), 828
Splenorenal bypass
Splenorenal bypass in the treatment of renal artery stenosis: Experience with sixty-nine cases (Khauli, Novick, Ziegelbaum), 547
Stenosis
Comparison of various oculoplethysmography modalities (AbuRahma and Diethrich), 288
Splenorenal bypass in the treatment of renal artery stenosis: Experience with sixty-nine cases (Khauli, Novick, Ziegelbaum), 547
Streptokinase
Current status of thrombolytic therapy (Porter and Taylor), 239
Intraoperative fibrinolytic therapy: An adjunct to catheter thromboembolectomy (Quinones-Baldrich, Zierler, Hiatt), 319
Local thrombolysis in the treatment of thrombosed arteries, bypass grafts, and arteriovenous fistulas (Graor et al.), 406
Stroke(s)
Are strokes predictable with noninvasive methods: A five-year follow-up of 303 unoperated patients (Moore et al.), 654
Carotid endarterectomy after a completed stroke: Reduction in long-term neurologic deterioration (McCullough et al.), 7
Carotid endarterectomy in the stroke patient: Computerized axial tomography to determine timing (Dosick et al.), 214
Cumulative stroke and survival ten years after carotid endarterectomy (Hertzer and Arison), 661
Timing of carotid artery endarterectomy after stroke (Giordano et al.), 250
Subclavian artery
Aneurysm of aberrant subclavian artery with a review of the literature (Austin and Wolfe) 571
The surgical reconstruction of the proximal subclavian and vertebral artery (Edwards and Mulherin), 634
Subclavian artery occlusive disease
What determines the symptoms associated with subclavian artery occlusive disease? (Walker et al.), 154
Subclavian steal
Subclavian steal despite ipsilateral vertebral occlusion (Pasch et al.), 913
Subclavian vein
Lytic therapy in the treatment of axillary and subclavian vein thrombosis (Druy et al.), 821
Simple extra-anatomic jugular vein bypass for subclavian vein thrombosis (Hansen, Feins, Detmer), 921
Subclavian-vertebral bypass
Use of the transverse cervical artery with indwelling shunt for subclavian-vertebral bypass (Donaldson, Druckemiller, Zablow), 917
Superficial femoral artery
The superficial femoral artery as a conduit: An alternative to prosthetic material (Mukherjee, Schickler, Inahara), 739
Venous claudication successfully treated by distal superficial femoral–to–greater saphenous venous bypass (Annous and Queral), 870
Superior mesenteric artery
Intramural dissection of superior mesenteric artery. A complication of attempted renal artery balloon dilation (Perry), 480
Spontaneous dissection of the superior mesenteric artery (Krupski, Effeney, Ehrenfeld), 731
Superior vena cava
Experimental superior vena caval placement of the Greenfield filter (Langham et al.), 794

T

Test reproducibility
Reproducibility of noninvasive tests of peripheral occlusive arterial disease (Osmundson et al.), 678
Thallium
Selection of patients for preoperative coronary angiography: Use of dipyridamole-stress–thallium myocardial imaging (Brewster et al.), 504
Thoracic aorta
Distal thoracic aorta to femoral artery bypass: A surgical alternative (Rosenfeld, Savarese, DeLaurentis), 747
Mesenteric vascular insufficiency and claudication following acute dissecting thoracic aortic aneurysm (Cogbill, Gundersen, Travelli), 472

Thoracotomy
Operative technique for repair of tracheoinnominate artery fistula (Courcy, Rodriguez, Garrett), 332
Thrombocytopenia
Heparin-induced thrombocytopenia: A prospective study of 142 patients (Kakkasseril et al.), 382
Thromboembolectomy
Intraoperative fibrinolytic therapy: An adjunct to catheter thromboembolectomy (Quinones-Baldrich, Zierler, Hiatt), 319
Thrombogenicity
In vivo evaluation of the acute thrombogenicity of the modified human umbilical vein and autologous artery (Björck et al.), 434
Thrombolysis
Current status of thrombolytic therapy (Porter and Taylor), 239
Early operative intervention after thrombolytic therapy for acute myocardial infarction (Wellons et al.), 186
Local thrombolysis in the treatment of thrombosed arteries, bypass grafts, and arteriovenous fistulas (Graor et al.), 406
Low-dose thrombolytic therapy for infrainguinal graft occlusions: An idea whose time has passed? (Perler et al.), 799
Thrombolytic therapy for acute arterial occlusion (Sicard et al.), 65
Thrombosis
Acute thrombosis of abdominal aortic aneurysm subsequent to Heimlich maneuver: A case report (Kirshner and Green), 594
The efficacy of dextran 40 in preventing early postoperative thrombosis following difficult lower extremity bypass (Van den Brande and Welch), 643 (letter); Reply (Rutherford), 644
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Hartman et al.), 285
Late axillary artery thrombosis in patients with occluded axillary-femoral bypass grafts (Blaisdell), 925; Reply (Hartman), 925
Local thrombolysis in the treatment of thrombosed arteries, bypass grafts, and arteriovenous fistulas (Graor et al.), 406
Lytic therapy in the treatment of axillary and subclavian vein thrombosis (Druy et al.), 821
Rupture of surgically thrombosed abdominal aortic aneurysm (Schanzer, Papa, Miller), 278
Simple extra-anatomic jugular vein bypass for subclavian vein thrombosis (Hansen, Feins, Detmer), 921
Tibial artery, anterior
Medial approach to the anterior tibial artery (Dardik et al.), 743
Tibial nerve
Popliteal entrapment syndrome: A report of tibial nerve entrapment (Podore), 335
Tibiotibial bypass
Tibiotibial vein bypass grafts: A new operation for limb salvage (Veith et al.), 552
Tissue transfer
Distal revascularization and microvascular free tissue transfer: An alternative to amputation in ischemic lesions of the lower extremity (Briggs et al.), 806
Tracheoinnominate artery fistula
Operative technique for repair of tracheoinnominate artery fistula (Courcy, Rodriguez, Garrett), 332
Transcutaneous aortovelography
The diagnosis and assessment of coronary artery disease in vascular patients (Nicolaides), 501
Transverse cervical artery
Use of the transverse cervical artery with indwelling shunt for subclavian-vertebral bypass (Donaldson, Druckemiller, Zablow), 917
Trauma
Percutaneous transcatheter embolization for arterial trauma (Panetta et al.), 54
Tunnel infections
Management of tunnel infections of dialysis polytetrafluoroethylene grafts (Gifford), 854

U

Ulcers
Martorell's hypertensive ischemic leg ulcers are secondary to an increase in the local vascular resistance (Duncan and Faris), 581
Skin perfusion pressure in the prediction of healing in diabetic patients with ulcers or gangrene of the foot (Faris and Duncan), 536
Ulnar artery
An objective sequential compression test to evaluate the patency of the radial and ulnar arteries (Fronek and King), 450
Ultrasound
Accuracy of carotid Doppler peak frequency analysis: Results determined by receiver operating characteristic curves and likelihood ratios (Johnston et al.), 515
Are strokes predictable with noninvasive methods: A five-year follow-up of 303 unoperated patients (Moore et al.), 654
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684
Ultrasound characteristics of recurrent carotid disease: Hypothesis explaining the low incidence of symptomatic recurrence (O'Donnell et al.), 26
Urokinase
Current status of thrombolytic therapy (Porter and Taylor), 239

V

Valve failure
Valve failure with the Ionescu-Shiley bovine pericardial bioprosthesis: Analysis of 2680 patients (Reul et al.), 192

Varicose veins
Arteriovenous shunting in varicose veins. Its diagnosis by Doppler ultrasound flow detector (Haimovici), 684
Surgical treatment of saphenous varices, with preservation of the main great saphenous trunk (Large), 886
Vascular injury
Iatrogenic vascular injury during peripheral revascularization (Bunt, Manship, Moore), 491
Vascular prostheses
Small-diameter vascular prostheses: Two designs of PTFE and endothelial cell–seeded and nonseeded Dacron (Schmidt et al.), 292
Vascular resistance
Martorell's hypertensive ischemic leg ulcers are secondary to an increase in the local vascular resistance (Duncan and Faris), 581
Vascular surgery
The early results of vascular surgery in patients 75 years of age and older: An analysis of 3259 cases (Plecha et al.), 769
A lasting legacy: The life and work of Rudolph Matas (Cordell), 613
1984: Newspeak, doublethink, and vascular surgery (Baker), 645
Vasopressin
Effects of vasopressin on cardiac output and its distribution in the subhuman primate (Kerr et al.), 443
Vein *(see specific vein)*
Vein graft(s)
Aneurysm formation in human umbilical vein grafts used as arterial substitutes (Boontje), 524
Effects of papaverine on smooth muscle cell morphology and vein graft preparation (Sottiurai et al.), 834
The fate of human umbilical vein grafts as an infrarenal aortic substitute in monkeys (Guidoin et al.), 715
Tibiotibial vein bypass grafts: A new operation for limb salvage (Veith et al.), 552
Vena cava, inferior
Patency in canine inferior vena cava grafting: Effects of graft material, size, and endothelial seeding (Gerlock and Phifer), 765 (letter); Reply (Herring and Glover), 765
Vena cava, superior
Experimental superior vena caval placement of the Greenfield filter (Langham et al.), 794
Vertebral artery
Discussion to Symposium on Surgery of the Vertebral Artery, 639
Distal vertebral artery bypass: Technique, the "occipital connection," and potential uses (Berguer), 621
Introduction to Symposium on Surgery of the Vertebral Artery (Perry), 620
Subclavian steal despite ipsilateral vertebral occlusion (Pasch et al.), 913
The surgical reconstruction of the proximal subclavian and vertebral artery (Edwards and Mulherin), 634
Vertebral arterial reconstruction: A nineteen-year experience (Imparato), 626
Vertebral artery bypass
Distal vertebral artery bypass: Technique, the "occipital connection," and potential uses (Berguer), 621
